

## A-G Evaluation Benchmarks

By their senior year, students must complete 15 units of A-G coursework. This chart displays the subject area benchmarks that should be completed by the end of each grade to reach this goal. Determined at each student's current grade level, students' eligibility for the CSU and UC systems depends on two factors: completion of required coursework within each subject area with a grade of C or better and attainment of at least a 2.5 GPA for the CSU and 3.0 for the UC.
